Opportunities — These suggestions can help your page load faster. They don't <u>directly</u> <u>affect</u> the Performance score.

Opportunity	Estimated Savings
Eliminate render-blocking resources	0.53 s V
Enable text compression	■ 0.15 s ∨
Diagnostics — More information about the performance of numbers don't <u>directly affect</u> the Performance score.	your application. These
Minimize Critical Requests Depth — 1 chain found	~

■ Keep request counts low and transfer sizes small — 4 requests • 76 KB

Passed audits (20)

Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Navigation — These are opportunities to improve keyboard navigation in your application.

▲ The page does not contain a heading, skip link, or landmark region

automated testing tool cannot cover. Learn more in our guide on <u>conducting an</u> <u>accessibility review</u>.

Passed audits (6)

Not applicable (28)

Best Practices

▲ Does not use HTTP/2 for all of its resources — 4 requests not served via HTTP/2

Passed audits (14)

SEO

These checks ensure that your page is optimized for search engine results ranking. There are additional

factors Lighthouse does not check that may affect your search ranking. <u>Learn more</u>.

Additional items to manually check (1) — Run these additional validators on your site to check additional SEO best practices.

Progressive Web App

These checks validate the aspects of a Progressive Web App. <u>Learn more</u>.

Fast and reliable

- Page load is fast enough on mobile networks
- Current page responds with a 200 when offline
- start_url responds with a 200 when offline

Installable

- Uses HTTPS
- Registers a service worker that controls page and start_url

▲ Does not provide a valid apple-touch-icon

Web app manifest meets the installability requirements **PWA Optimized** Does not redirect HTTP traffic to HTTPS Configured for a custom splash screen Sets an address-bar theme color Content is sized correctly for the viewport Has a <meta name="viewport"> tag with width or initial-scale Contains some content when JavaScript is not available

Additional items to manually check (3) — These checks are required by the baseline ~ PWA Checklist but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
